

Nokia Lumia 520 Touchscreen Replacement

Follow this guide to fix the glass and frame

Written By: Smilzo

INTRODUCTION

Follow this guide to fix the glass and frame

Step 1 — Touchscreen

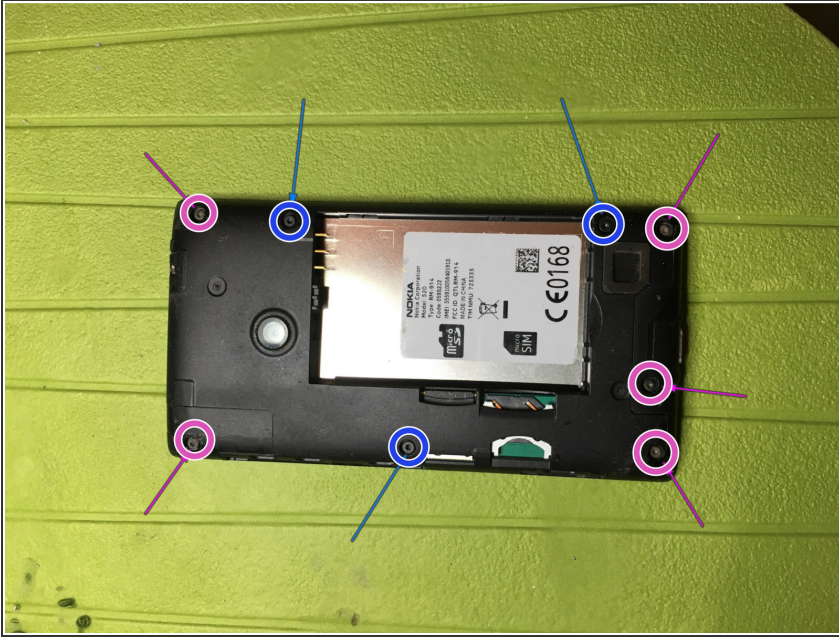

- remove back cover

Step 2

- remove battery

Step 3

- Remove 5 long screws, the pink arrow
- Remove 3 short screws, blue arrow

Step 4

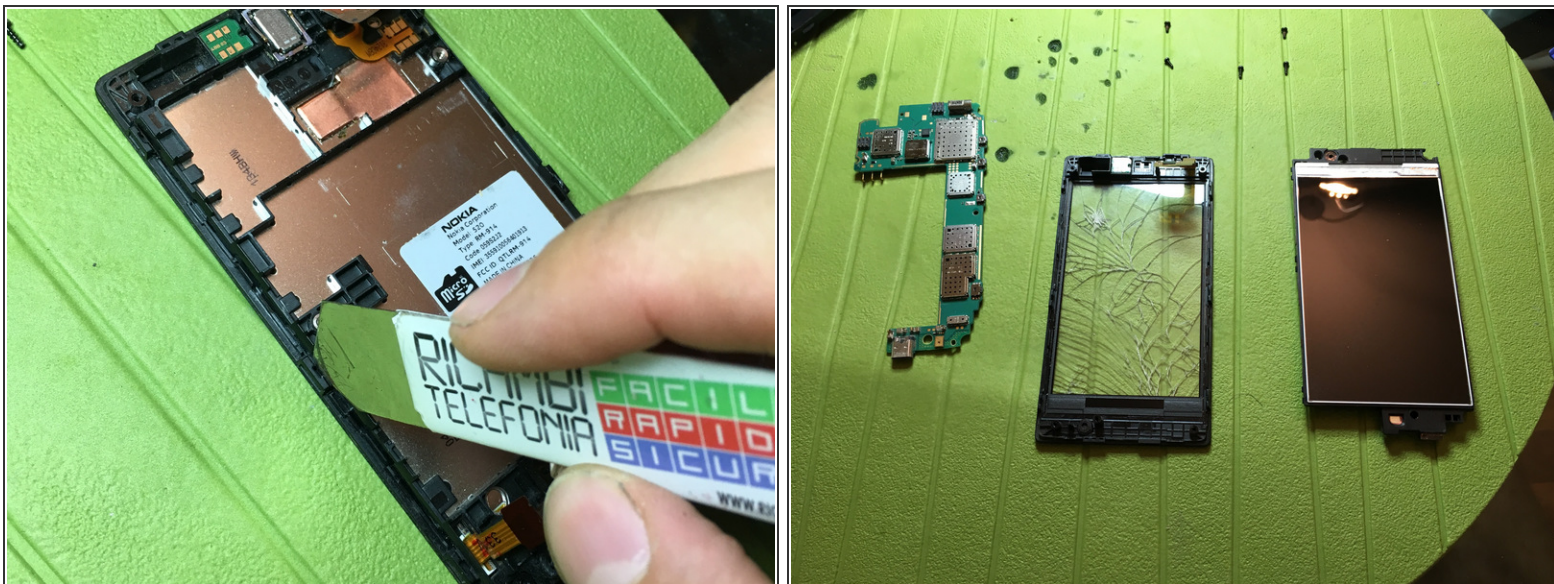

- With a thin tool unclip the central body from the back cover, along the phone profile

Step 5

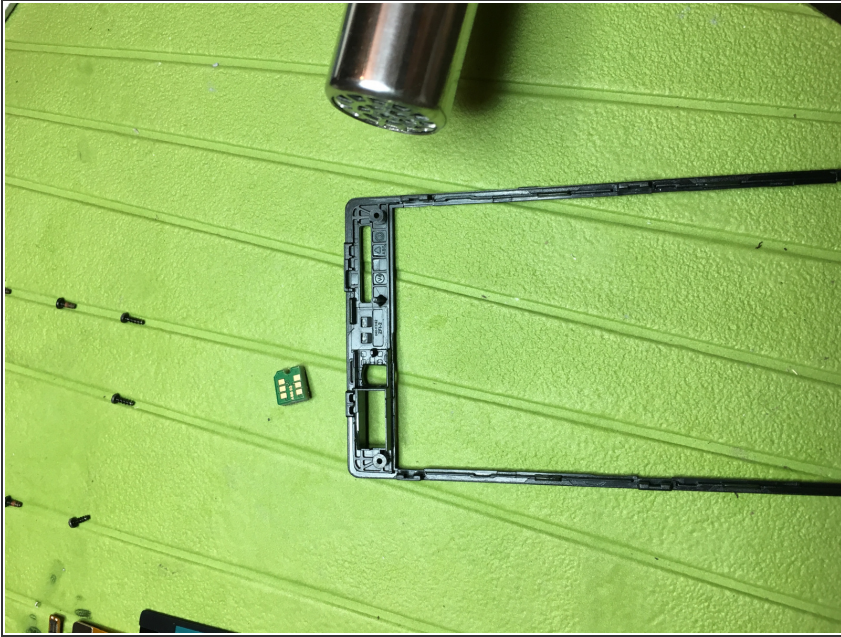

- Unhook touchscreen connector
- Unhook display connector
- Release the motherboard from the central phone body

Step 6

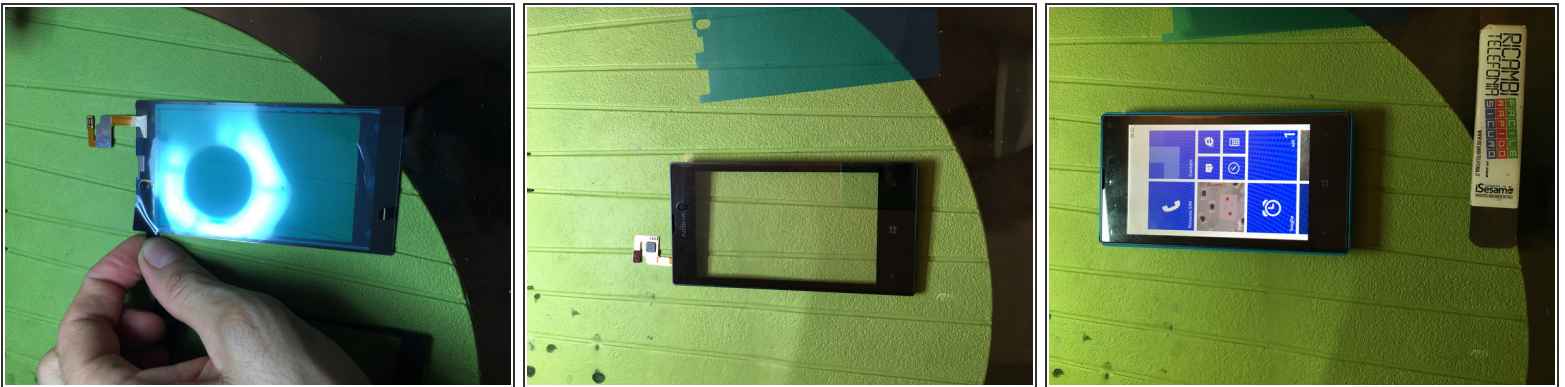

- Disengage from the main body frame touchscreen lifting hooks on the perimeter with a fine instrument

Step 7

- Remove light sensor as an old frame with the aid of a heat source
- Insert the sensor in the new frame

Step 8

- Remove adhesive film that protects from the new touchscreen glass
- Insert flat touchscreen in the frame slot and adhere the adhesive to the frame by putting it in the correct position

Per rimontare il dispositivo, segui queste istruzioni in ordine inverso.
